Foot Actuated Valve Yellow

Manual

Foot Actuated Valve

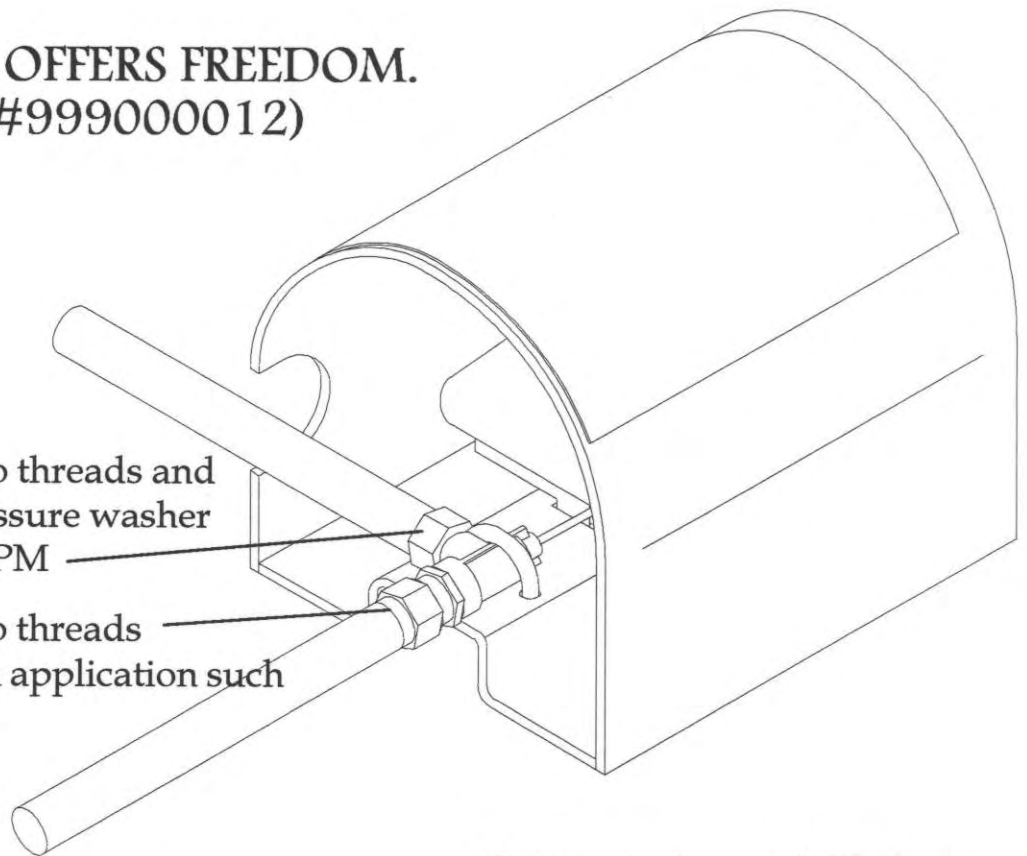

- *Foot controlled so both hands of operator are free to work*
- *Heavy gauge steel construction for durability*
- *Valve is easily repaired with standard kit*
- *Pedal and Valve are in protective housing*
- *Inlet/Outlet positioned to keep hoses away*

Ever wish you could use both hands for your pressure washer application? Now you can with the foot actuated valve from Suttner America Company. This valve allows you the freedom to use both hands on such jobs as cleaning drain pipes, sandblasting, or using the sludge pump on a flooded basement. **Durable, reliable, rebuildable, and affordable**, this valve will fit the need for many applications.

THE VALVE THAT OFFERS FREEDOM. ASSEMBLY (#999000012)
